

Greyson Scott McReynolds – Atlanta, GA

mcreynoldsgreyson@gmail.com | 678-751-0940 | linkedin/in/greysonmcreynolds | www.greysonmcreynolds.com

A design-minded Master's CS student with strengths in Object Oriented Programming, algorithms, and AI/ML. Interested in the application of computing to fields such as education, sustainability, and human geography.

Education

Georgia Institute of Technology | *M.S. in Computer Science, Specialization in Artificial Intelligence* (Aug 2025 – Dec 2026)

- GPA: 4.00/4.00
- Relevant Coursework: Human Computer Interaction, Data & Visual Analytics, Educ. Tech, ML in Comp Bio

Georgia Institute of Technology | *B.S. in Computer Science, Threads in AI / Modeling & Simulation* (Aug 2022 – Dec 2025)

- GPA: 3.81/4.00
 - Minor in Mathematics
 - Relevant Coursework: Object Oriented Programming, Data Structures & Algorithms, Computational Modeling Algorithms Systems & Networks, Artificial Intelligence, Machine Learning, Computer Vision, Perception & Robotics, Computer Law
-

Recent Employment

Choe Global Markets | *Software Engineering in Test Intern, Data Vantage Engineering* – Chicago, IL (June 2026 – Present)

- Implementing Playwright-based test suites for an internal application, improving automated test coverage

AMAROK | *Machine Learning and AI Software Engineering Intern* – Columbia, SC (May 2025 – Sept 2025)

- Developed custom transformer model in Databricks for predicting severity of incoming alarm signals with 90% accuracy
- Repurposed HuggingFace NLP model to classify field technician notes with 97% accuracy
- Regularly evaluated the efficacy of incoming AI technologies on behalf of the company

Cox Enterprises | *ServiceNow Delivery Admin Intern* – Sandy Springs, GA (May 2024 – Aug 2024)

- Re-architected and shipped catalog items through ServiceNow; used JavaScript to incorporate additional functionality
 - Shipped an application promoting recycling at Cox, leveraging Azure AI Vision models and the OpenAI GPT-4 API
-

Relevant Projects

Automatic Ostrich Mister (Aug 2025 – Dec 2025)

- Engineered an automatic misting system for ostriches at Zoo Atlanta, applying animal-centered design principles
- Translated qualitative research insights into hardware/control logic requirements with interviews and on-site observations

SNU Yellow Pages (Jun 2024 – Oct 2025)

- Led development of a full-stack networking platform for brothers and alumni serving 100+ active users
 - Tech stack included: Flask, React, Tailwind CSS, Supabase, D3.js, and Google Apps Script (JavaScript)
-

Organizations

Sigma Nu - Gamma Alpha Chapter (Aug 2023 – Present)

- President (Current) – Leader of the fraternity, custodian of \$500,000 annual budget, and presides over all other officers
- Recorder/Risk Manager – Maintained a vast alumni database and served as the primary contact during emergencies
- Community Service Chair - Increased community service involvement by 275%, generating 1,100 hours total

Better Help Drones Project | *Lead of Macro Path Planning Team* (Aug 2024 – Dec 2025)

- Group leader of a multidisciplinary competition team entering the XPRIZE Drone Wildfire Competition for \$11 Million
 - Created drone simulations using Gymnasium and created system for effective autonomous drone navigation with DroneKit
 - Applied algorithms such as A*, RRT, Perlin Noise, and Voronoi Tessellations
-

Proficiencies

- Languages: Java, Python, JavaScript, C, SQL
- Technologies: NumPy, Pytorch, React, Flask, DroneKit, Databricks, Azure AI Studio, Supabase, Git, APIs, LaTeX
